

POINT NEPEAN

A MUSIC EXPERIENCE

EASTER WEEKEND

So many festival sites present nothing more than an open field converted for event use. Point Nepean on the other hand is a destination all by itself... The genius of bringing good music to this stunning location results in a very rare and special event that literally could not be reproduced anywhere else on the planet.

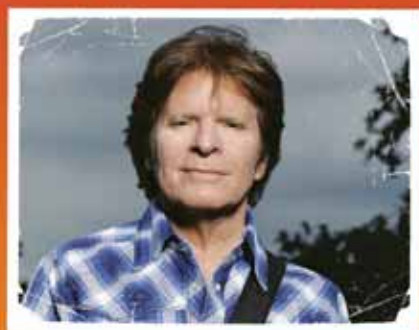

Tim Reed, Taj Mahal TM 2007

"With Point Nepean we have a major new festival that sets a benchmark."
