

Computer future

IT Futures offers a number of industry recognised IT certifications which lead to various specified positions in the IT arena.

The "Complete Security Program with Job Guarantee" is exclusive to IT Futures and is a unique, authoritative, high-value, hands-on practical course which provides an essential understanding of the tools, methodologies and concepts that IT engineers use on a daily basis within organizations.

The Complete Security Program combines

all the necessary certifications which are in demand by the IT market combined with work experience to get the necessary exposure to the IT market in Melbourne.

IT Futures also provides support for small to medium enterprises throughout Melbourne, providing Microsoft, Check Point, Symantec Anti-Virus and backup solutions for various networks throughout Melbourne. Students at IT Futures gain valuable industry experience by supporting a range of customers.
