

UWA SCHOLARSHIPS: SUPPORTING YOUR WORLD-CLASS POSTGRADUATE RESEARCH

The University of Western Australia is a member of Australia's Group of Eight research-intensive universities and consistently ranks among the nation's finest research institutions.

If you're looking to undertake cutting-edge research in a State which is attracting outstanding people from across the country and around the globe, apply for a prestigious UWA postgraduate scholarship. UWA scholarships provide tax-free stipends of up to \$30,000 per annum and generous relocation allowances, with a total

value of up to \$110,000 over three-and-a-half years. Applications for 2010 scholarships close on 30 October 2009.

For full details on how UWA can help you to achieve international excellence, visit us at www.scholarships.uwa.edu.au

Chemistry PhD at Melbourne

Are you looking for a change of scenery and a challenge?

The School of Chemistry at the University of Melbourne offers talented chemists access to top class facilities and award-winning academics.

If you are intending to undertake a PhD in 2010, you are invited to attend an information session on 1st or 2nd October. At this session you will be given the opportunity to view our facilities and meet with our research group leaders to discuss possible projects.

For further information or to RSVP, please email Vicki Burley (vickib@unimelb.edu.au) by 18th September 2009.

Research Higher Degree Project Opportunities

If you are considering applying for a scholarship in the current September round to pursue post graduate research studies you may wish to consider connecting with projects we have in development and pursue your studies with us. These projects will link you with industry, government or other partners in order to enhance your networks, the applications of your research, and potentially open up career opportunities as a result of your studies.

Here are some of the projects to give you a taste of these opportunities:

- Innovation and sustainability in Australian games and interactive entertainment with Australian games companies and the Australia Council
- Australia's creative engagements with Asia in such fields as design, architecture, fashion and digital media with partners such as Austrade
- Designing creative clusters in China and Japan with Arup
- International development and empowerment through ICTs in south Asia with partners such as Intel and UNESCO
- Urban regeneration and creative reuses of space with partners such as eastern seaboard city councils and state government agencies

To discuss these and other opportunities contact Professor Greg Hearn g.hearn@qut.edu.au
